(1-Year)

Part-Time
(2-Years)

Per Module Basis

Career Excel Academy Higher Education · CAPITEC · SAPOA · safma

This course is fully endorsed by the South African Facilities Management Association (SAFMA)

# Facilities Management

Higher Certificate - 1 Year

## Introduction

The purpose of this qualification is to prepare students to perform the functions required from a Facilities Manager within the Built Environment. A Facilities Manager organises, controls, coordinates and leads the strategic and operational management of facilities (fixed and movable assets) in a public or private organisation. Facilities Management is the practice of aligning the physical space with the people and work of that space. It integrates the principles of business administration, architecture and the behavioural and engineering sciences. Within the South African contexts, the purpose of this higher certificate is specifically focused to fill the existing gap in terms of the need for properly trained Facility Managers. This qualification is aimed at contributing to aligning the South African Facilities Management industry to the International Facilities Management Association's standards and competencies. This will enable qualified students to be on par with over 24 000 practitioners in 104 countries. The outcome of this qualification is to provide properly qualified people to the Built Environment industry, who can follow a career path from entry-level, middle management to senior positions in Facilities Management

## Admission Requirements

*To enrol in this program, you must meet one of the following criteria:*

- **Standard Entry:** A National Senior Certificate (NSC) or National Certificate Vocational (NCV/Matric).
- **Mature Age / RPL:** Be 23 years or older with relevant experience (Recognition of Prior Learning).
- **International Students:** Must hold a qualification equivalent to the South African Grade 12 level.

*Subject Recommendations:*

- **Mathematics/Maths Literacy:** Minimum 40% pass rate required.
- **English:** Must meet the prescribed pass mark.
- **Recommended:** School-level Science is recommended but not required.

## Course Structure & Delivery

- **Next Intake:** June 2026.
- **Duration:** * Full-time: 1 Year.
- **Part-time:** 2 Years (Recommended for working professionals due to high workload).
- **Format:** Full-time students must attend 4 block weeks of classes, spread across 2 semesters.
- **APS Score:** Not applicable for this course.

## RPL

# Facilities Management

Higher Certificate - 1 Year

## Class Attendance

### BLOCK WEEKS

This course requires mandatory attendance of four week-long, on-campus (or online) sessions each academic year. These intensive block weeks are designed for hands-on activities, collaborative projects, and direct engagement with lecturers and peers.

### ONLINE CLASSES & INDEPENDENT STUDY

Following each block week, you'll transition to weekly evening online classes. These sessions will be conducted via live video conference and will focus on theoretical concepts and discussions. In addition to the scheduled classes, you'll be expected to complete independent study, readings, and assignments

### ASSESSMENTS & EXAMINATIONS

Your overall grade will be determined by a combination of:

- **Formal examinations** - Comprehensive tests covering material from both the block weeks and online classes.
- **Tests** - Regular, smaller assessments conducted throughout the term to gauge your understanding of specific topics.
- **Assignments** - Practical assignments, projects and coursework submitted throughout the year.

## Course Outcomes

- **Globally Competent Graduates** - Graduates will possess the competencies required to meet international Facilities Management standards and align with global best practices.
- **Skilled Facilities Managers** - Students will be equipped to plan, organise, coordinate, and lead the management of physical spaces and supporting services effectively.
- Enhanced Industry Capacity - The qualification will contribute to increasing the local and international capacity of the Facilities Management workforce, particularly in South Africa.
- **Career Pathway Development** - Graduates will be prepared to pursue roles ranging from entry-level to senior management within the Facilities Management domain.
- **Integrated Knowledge Application** - Students will demonstrate the ability to integrate principles from multiple disciplines, including business, architecture, engineering, and behavioural sciences, into effective Facilities Management practices.
- **Sustainable Built Environment Management** - Graduates will contribute to the long-term management and optimisation of residential, commercial, industrial, and utility buildings, ensuring sustainability and value creation for stakeholders

Higher Certificate - 1 Year

Department of Facilities & Asset Management

## Course Objectives

- Prepare Competent Facilities Managers - Equip students with the knowledge and skills required to strategically and operationally manage facilities, including fixed and movable assets, in both public and private organisations.
- Align with International Standards - Contribute to aligning the South African Facilities Management industry with the International Facilities Management Association's standards, competencies, and ISO requirements.
- Bridge the Education Gap - Provide a formal qualification to address the shortage of trained Facilities Managers in South Africa, fostering the growth of local expertise in a globally competitive field.
- Promote Career Growth: Lay the foundations for a structured career path in Facilities Management, enabling progression from entry-level roles to senior management positions.
- Support Built Environment Investments - Enhance the ability of professionals to manage significant investments in the Built Environment, supporting both public and private sector organisations in optimising their assets.
- Encourage Adaptability and Innovation - Prepare students to adapt to the evolving needs of the Facilities Management industry through an integrated understanding of business administration, architecture, engineering, and behavioural sciences.

## Fees Structure

*You can register for the course in two ways: either in full, enrolling in all modules at once, or per module, which allows for a more flexible, personalised learning path.*

**1** Opting for full registration offers a comprehensive and structured approach, often at a discounted rate, and ensures you complete all course requirements.

**2** Alternatively, choosing to register per module gives you the flexibility to select only the modules you need, manage your learning pace, and spread the cost over time. This option is ideal for those who want to acquire specific skills or working individuals who cannot commit to the entire curriculum within an academic cycle.

### FULL TIME (1 YEAR)

## Course Modules & Themes

*All modules are on NQF Level 5 and compulsory to complete. There are no elective modules. The Fundamental and Core modules are listed below:*

| | Code | SemCode | Name | Credits | Price |
|---|---|---|---|---|---|
| Core | FMT | 101 | Facilities Management | 16 | R 6 600 |
| | FMT | 102 | Facilities Management | 16 | R 6 600 |
| | PDT | 101 | Property Development | 16 | R 6 600 |
| | CQS | 101 | Construction Quantity Surveying | 16 | R 6 600 |
| | CML | 101 | Commercial Law | 16 | R 6 600 |
| Fundamentals | SBE | 101 | Structure of the Built Environment | 8 | R 3 300 |
| | BCT | 101 | Basic Construction Technology | 8 | R 3 300 |
| | BCT | 102 | Basic Construction Technology | 8 | R 3 300 |
| | PRL | 101 | Property Law | 16 | R 6 600 |
| | | | | **120** | **R 49 500** |

## Career Prospects

Upon completion, students are well-equipped for entry-level to senior roles in facilities management, including facilities management consultant, facilities co-ordinator, and maintenance manager.

**A qualification in Facility Management can lead to roles such as:**

- Facilities Manager
- Property / Building Manager
- Maintenance Planner
- Space Planner
- Health & Safety Coordinator
- Operations Supervisor
- Project Assistant
- Energy / Utilities Coordinator

## Assessment Methodology

Students will be assessed throughout the Course through a combination of formative and summative assessments, which are designed to measure achievement in the module outcomes and the Exit Level Outcomes of the qualification. Each module of the qualification will be assessed separately or in combination with other modules in an integrated assessment.

### FORMATIVE ASSESSMENTS (50% OF TOTAL ASSESSMENT VALUE)

Formative assessments will be conducted continuously throughout the teaching-learning process per semester to assist lecturers and students to monitor progress and to take corrective action, where needed. Formative assessments will be in the form of:

- **Written knowledge tests**, which will account for 20% of the formative assessment value. There will be two tests, one per semester, and
- **Individual written assignments**, which will account for 30% of the formative assessment value. Short assignments must be completed per module per semester.

Written tests and assignments per module will be based on information gained through discussions of workplace-based case studies, group exercises, informal oral presentations, role plays, study material and formal lectures.

The learnings through the formative assessment process will prepare participants for the final exam. A minimum mark of 40% for formative assessments is required to write the examination.

### SUMMATIVE ASSESSMENTS (50% OF TOTAL ASSESSMENT VALUE)

The summative assessment will be done through a final exam that will cover all the modules of the program. A sub-minimum of 50% for the final exam is required for students to achieve the Higher Certificate.

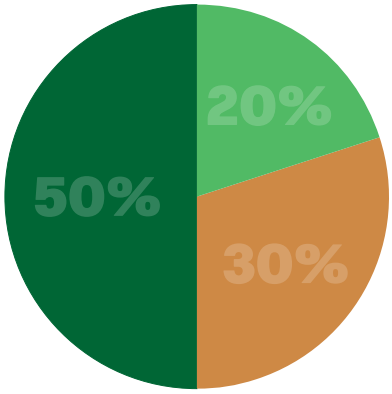

### WEIGHTING OF ASSESSMENTS

Formative assessments make up 50% of all assessment marks and are in the form of:

- **Written Tests 20%**
- **Individual Assignments 30%**

Summative assessments will account for 50% of the total assessment value and in the form of:

- **Individual written exam: 50%**

## Course Format

This Higher Certificate consists of a dual delivery model, integrating four in-person classroom sessions / workshops per year, each running from Monday to Friday and which can be attended in person or via live, interactive online sessions. The aforementioned is combined with self-study, online video sessions and evening classes throughout the year.

## Registration

- Closing date(s) for registration: please refer to attached Course schedule.
- Cancellations must be done in writing and in accordance with the administrative process prescribed.
- For more information on application and registration procedures, please visit our website: www.cea.ac.za

## Certification

A Certificate of Competence will be awarded to each participant who has successfully completed all modules, assignments & examinations, and achieved an overall percentage of a minimum of 50%

## Course Presenters

### MR. CLIFF HOCKING

Cliff Hocking is an experienced facilities management and organisational development leader with over 40 years of executive, governance and community leadership experience. He served as President of the South African Facilities Management Association (2007–2010) and continued as Board Director until 2020, contributing significantly to the growth and professionalisation of the industry in Southern Africa. A regular conference presenter since 1998, he is recognised for his strategic insight and commitment to professional standards.

Cliff holds National Diplomas in Business Administration and Organisation & Work Study, and completed the Executive Development Programme at the University of Cape Town Graduate School of Business. His expertise includes strategic leadership, governance, change management and organisational development.

A long-standing member of Lions Clubs International, he has served as District Governor and Chairman of the National Council, alongside numerous other leadership roles in civic and community organisations.

## MR. KAREL OBERHOLZER

Karel obtained an honours degree in Urban Geography from the University of the Orange Free State and an MBA from the Potchefstroom University Business School. He started his career at FNB's branch and ATM network planning division. Over the span of 14 years at the Bank Karel worked at various departments and divisions gaining valuable analytical, project management and general business experience.

He ended his career at the Bank, heading the advanced analytics and data modelling department. From June 2007 Karel was heading the ECE Project Developments Company, a subsidiary of a property syndication and investment business, providing programme and project management services to both the property development and information technology environments.

Karel was appointed as Senior Project Manager at Calgro M3 in January 2009 where he was responsible for various residential housing developments spanning across different market segments over the entire property development life cycle and value chain. This included mid to high income residential development, retirement estate as well as fully integrated housing projects requiring Government funding.

Karel started a property development and project management consulting company, named O5 Projects during the course of 2018. In addition to the consulting company Karel took up full time employment at the Bigen Group (Engineering Consulting) at the end of 2019 till July 2022, as senior property development manager. From August 2022 Karel become part owner and director of the Innovative Consolidated Group, a holding company with various subsidiaries including a steel construction company, educational institution, property development company and other.
