1 Day Introduction to Construction Project Management Programme

Department of Construction Project Management

INTRODUCTION

The Construction Project Management Programme educates individuals for management positions within the construction industry by imparting project management principles. Emphasising practical application, contemporary methodologies, and readiness for the industry's anticipated growth, the programme equips participants with essential skills, accompanied by comprehensive coverage of all study materials included in the course cost.

PROGRAMME OBJECTIVES

The Construction Project Management Programme (CPMP) aims to provide students with a comprehensive understanding of construction project management and its application in the built environment. The programme covers essential areas of project management and introduces students to specific construction project management applications.

PROGRAMME OUTCOMES

By the end of the programme, delegates will have a solid understanding of project management principles, including the Project Management Body of Knowledge (PMBOK) specific to construction, practical use of MS Projects, construction project cash flow, and risk factors in construction projects.

PROGRAMME STRUCTURE AND CONTENT

- Introduction
- Project Management Fundamentals
- Construction Project Stages and Life Cycle
- Basics of Construction Contracting in S.A.
- Basics of Project Cost Elements
- Construction Project Management – Review
- Aspects to Consider and Closing Remarks

PROGRAMME FORMAT

The programme is presented on NQF5 (first year university) level. The duration is 1 day and it will be hosted in an interactive online class environment.

WHO SHOULD ATTEND?

This programme is valuable for anyone engaged in project work, whether as a project manager, team member, planner, or senior manager. The content is highly relevant across various sectors, including business, government, services, engineering, social development, and information management.

COURSE PRESENTERS

All presenters on the course are recognised leaders in their fields:

Lecturer: Dr Mart-Mari Els

Dr Mart-Mari Els is an accomplished academic and professional in the field of Quantity Surveying and Construction Management. Since 2008, she has been a dedicated lecturer at the University of the Free State, where she teaches modules ranging from Descriptive Quantification to Property Development Economics. Mart-Mari recently completed her PhD in Higher Education Studies, focusing on innovative teaching methodologies for the built environment. Her expertise is backed by a BSc, Honours, and an MSc in Quantity Surveying.

Programme Leader: Mr Karel Oberholzer

Karel Oberholzer is a property development specialist with over two decades of experience in banking and construction. Currently a director at Innovative Consolidated Group, he previously held senior roles at Bigen Group and Calgro M3, managing complex residential life cycles. His expertise includes 14 years at FNB, where he led advanced analytics. Academically, Karel holds an honours degree in Urban Geography and an MBA. This combination of analytical mastery and leadership in the built environment provides students with a commercially grounded perspective on property management.
