3 Day / 8 Week
Construction Project Management Programme

Department of Construction Project Management

INTRODUCTION

We are introducing a blended approach that combines the benefits of online learning with the engaging elements of live interaction. The proposed format features a mix of in-class and live, synchronous sessions alongside interactive online materials and activities. This approach not only retains the structure and personal connection of face-to-face programmes but also offers the convenience and accessibility of online learning.
Furthermore, the involvement of both academic experts and experienced property professionals ensures a rich and practical learning experience, tailored to the needs of today's Built Environment professionals.

PROGRAMME OBJECTIVES

The Construction Project Management Programme (CPMP) aims to provide students with a comprehensive understanding of construction project management and its application in the built environment. The programme covers essential areas of project management and introduces students to specific construction project management applications.

PROGRAMME OUTCOMES

By the end of the programme, delegates will have a solid understanding of project management principles, including the Project Management Body of Knowledge (PMBOK) specific to construction, practical use of MS Projects, construction project cash flow, and risk factors in construction projects.

PROGRAMME STRUCTURE AND CONTENT

- Introduction to Construction Project Management body of knowledge (PMBOK)
- Project Management
- Commercial & Construction contracts law
- Property Economics, Budgets and Life Cycle Costing
- Feasibility studies & investment
- Construction Contracts Law
- Construction & Professional insurance
- Estimation of construction cost
- Tendering Procedures
- Variation orders, interim certificates & final accounts
- Cash Flow Projections
- Utilisation of Subcontractors
- Site Management, plant & equipment
- Total Quality Management
- Risk Management
- Communication
- Marketing and Public Relations
- Public Private Partnerships
- Stakeholder Engagement
- Strategic Goal Alignment
- Predictive Maintenance

3 Day / 8 Week
Construction Project Management Programme

Department of Construction Project Management

PROGRAMME FORMAT

The programme is presented on NQF5 (first year university) level. The duration is 3 days and the proposed format features a mix of in-class and live, synchronous sessions alongside interactive online materials and activities.

WHO SHOULD ATTEND?

This program is valuable for anyone engaged in project work, whether as a project manager, team member, planner, or senior manager. The content is highly relevant across various sectors, including business, government, services, engineering, social development, and information management.

CERTIFICATE REQUIREMENTS

Participants will receive a Certificate of Attendance based on the number of hours attended, while a Certificate of Competence will be granted to those who attended the live sessions and complete the assignment, achieving a minimum score of 50%.

COURSE PRESENTERS

All presenters on the course are recognised leaders in their fields:

Lecturer: Dr Mart-Mari Els

Dr Mart-Mari Els is an accomplished academic and professional in the field of Quantity Surveying and Construction Management. Since 2008, she has been a dedicated lecturer at the University of the Free State, where she teaches modules ranging from Descriptive Quantification to Property Development Economics. Mart-Mari recently completed her PhD in Higher Education Studies, focusing on innovative teaching methodologies for the built environment. Her expertise is backed by a BSc, Honours, and an MSc in Quantity Surveying.

Programme Leader: Mr Karel Oberholzer

Karel Oberholzer is a property development specialist with over two decades of experience in banking and construction. Currently a director at Innovative Consolidated Group, he previously held senior roles at Bigen Group and Calgro M3, managing complex residential life cycles. His expertise includes 14 years at FNB, where he led advanced analytics. Academically, Karel holds an honours degree in Urban Geography and an MBA. This combination of analytical mastery and leadership in the built environment provides students with a commercially grounded perspective on property management.
