5 Day / 12 Week
Construction Project Management Programme

Department of Construction Project Management

INTRODUCTION

We are introducing a blended approach that combines the benefits of online learning with the engaging elements of live interaction. The proposed format features a mix of in-class and live, synchronous sessions alongside interactive online materials and activities. This approach not only retains the structure and personal connection of face-to-face courses, but also offers the convenience and accessibility of online learning.

Furthermore, the involvement of both academic experts and experienced property professionals ensures a rich and practical learning experience, tailored to the needs of today's Built Environment professionals.

PROGRAMME OBJECTIVES

The Construction Project Management Course has been structured to provide students with a thorough understanding of construction project management and the application thereof in the built environment. The objective of the course is to cover the proven generic areas of project management and to introduce students to built environment CPM applications.

PROGRAMME OUTCOMES

Delegates will be able to produce an assignment that can be used as a framework to compile their own instruction manual for Construction Project Management practice. This can be developed into a workplace manual and the practical application of knowledge that promotes excellence in how to get the job done!

PROGRAMME FORMAT

The programme is presented on NQF5 (first year university) level. The course period is 12 weeks with 5 contact sessions (not applicable to self-paced online students) and the proposed format features a mix of in-class and live, synchronous sessions alongside interactive online materials and activities.

WHO SHOULD ATTEND?

This course is valuable for anyone engaged in project work, whether as a project manager, team member, planner, or senior manager. The content is highly relevant across various sectors, including business, government, services, engineering, social development, and information management.

THIS COURSE IS PERFECT FOR

Matriculants with a passion for building, organising and leading.
Problem-solvers who enjoy planning and work well within a team.
Ambitious individuals ready to start building their career in specific sectors such as commercial, residential or infrastructure.

CERTIFICATE REQUIREMENTS

Participants will receive a Certificate of Attendance based on the number of hours attended, while a Certificate of Competence will be issued to those who attended the live sessions, completed all modules and assignments, and achieved a minimum score of 50%.

COURSE PRESENTERS

All presenters on the course are recognised leaders in their fields:

Programme Leader: Mr Karel Oberholzer

Karel Oberholzer is a property development specialist with over two decades of experience in banking and construction. Currently a director at Innovative Consolidated Group, he previously held senior roles at Bigen Group and Calgro M3, managing complex residential life cycles. His expertise includes 14 years at FNB, where he led advanced analytics. Academically, Karel holds an honours degree in Urban Geography and an MBA. This combination of analytical mastery and leadership in the built environment provides students with a commercially grounded perspective on property management.
