5 Day / 12 Week
Construction Technology Programme

Department of Construction Project Management

INTRODUCTION

This programme is tailored to meet the requirements of numerous property professionals who have joined the industry without formal training in the built environment. It covers a range of topics, supported by comprehensive study materials, including soil mechanics and foundations, construction technology, cement and concrete, building components and finishes, electrical and mechanical equipment and services, plumbing installations, water supply, sewerage, drainage, passive environmental control, intelligent buildings, and energy efficiency. Elevate your technological expertise and improve your decision-making and implementation abilities through this course.

PROGRAMME OBJECTIVES

The objective with this programme is to provide new entrants to the built environment, as well as those who established career paths in the built environment from other disciplines, with a broad overview regarding construction technology. Empower participants with foundational knowledge and practical skills in construction technology, building services, sustainable design, and regulatory compliance, enabling them to make informed decisions in construction, maintenance, and environmental management for safe, efficient, and sustainable built environments. This objective highlights the course's aim to provide participants with a broad yet practical understanding of essential construction and building maintenance principles within a sustainable framework.

PROGRAMME OUTCOMES

On completion of the programme participants will be able to:

- Contribute to decision-making regarding soil conditions and foundation selection;
- Interpret basic construction technology and erection of structures;
- Explain the risks and correct usage of cement and cement-based products;
- Identify alternative components and finishes in buildings;
- Understand the operation of water, drainage, electrical and mechanical building services;
- Understand the choices that have to be made between passive and active environmental control, intelligent building imperatives, energy efficiency and green technology requirements;
- Introduce pest control and management procedures;
- Structure basic maintenance procedures; and
- Assess the regulatory environment and the implications thereof for construction work and property ownership.

WHO SHOULD ATTEND?

This program is valuable for anyone engaged in project work, whether as a project manager, team member, planner, or senior manager. The content is highly relevant across various sectors, including business, government, services, engineering, social development, and information management.

THIS COURSE IS PERFECT FOR

- Construction Project Managers
- Civil Engineering Technicians
- Civil Contractors

CPD CREDITS

CAREER EXCEL ACADEMY (PTY) LTD. Company no. 2015/155336/07.
Provisionally registered as a Private Higher Education Institution.
Registration Certificate No. 2022/HE07/004. Directors: KJ Oberholzer, R van der Walt.

5 Day / 12 Week
Construction Technology Programme

Department of Construction Project Management

PROGRAMME STRUCTURE AND CONTENT

- Introduction to Construction Technology – Programme Structures, Fundamental Premise, Built Environment Commercial Terminology, Structure of the Built Environment, Soil Mechanics & Foundations
- Construction Technology
- Cement & Concrete
- Building Components & Finishes
- Building Services
- Regulatory Environment & Support
- Passive Environmental Control in Buildings
- Intelligent Buildings, Energy Efficiency and "Green Technology"
- Pest Control in Buildings
- Maintenance Work
- BIM (Building Information Modelling)
- Computerised Maintenance Management
- Building Services
- Electricity Generation

PROGRAMME FORMAT

The programme is presented on NQF5 (first year university) level. The course period is 12 weeks with 5 contact sessions (not applicable to self-paced online students) and the proposed format features a mix of in-class and live, synchronous sessions alongside interactive online materials and activities.

CERTIFICATE REQUIREMENTS

Participants will receive a Certificate of Attendance based on the number of hours attended, while a Certificate of Competence will be issued to those who attended the live sessions, completed all modules and assignments, and achieved a minimum score of 50%.

COURSE PRESENTERS

All presenters on the course are recognised leaders in their fields:

Programme Leader: Mr Karel Oberholzer

Karel Oberholzer is a property development specialist with over two decades of experience in banking and construction. Currently a director at Innovative Consolidated Group, he previously held senior roles at Bigen Group and Calgro M3, managing complex residential life cycles. His expertise includes 14 years at FNB, where he led advanced analytics. Academically, Karel holds an honours degree in Urban Geography and an MBA. This combination of analytical mastery and leadership in the built environment provides students with a commercially grounded perspective on property management.

CAREER EXCEL ACADEMY (PTY) LTD. Company no. 2015/155336/07.
Provisionally registered as a Private Higher Education Institution.
Registration Certificate No. 2022/HE07/004. Directors: KJ Oberholzer, R van der Walt.

5 Day / 12 Week
Construction Technology Programme

Department of Construction Project Management

REGISTRATION

- Registration covers attendance of all sessions, as well as all programme material and relevant textbook(s).
- Closing date(s) for registration are one week prior to the start of the programme.
- Cancellations must be received one week before the start of the programme or the full programme fee will be charged.
- For more information on application and registration procedures, please visit our website at www.cea.ac.za.

CERTIFICATES AND CPD CREDITS

- The programme is an approved Career Excel Academy short learning programme and is accredited with the Engineering Council of South Africa (ECSA) for the award of five CPD credits (*SAIMechE – 1769-06/28*).
- A Certificate of Attendance will be awarded to participants who attended attend the live sessions only.
- A Certificate of Competence will be awarded to each participant who attended the live sessions, completed each module / assignment, and achieved a minimum of 50%.

PROGRAMME OVERVIEW

Programme	**Construction Technology**
Venue	Career Excel Academy Campus: 140 Bauhinia Street, Highveld Techno Park, Centurion, 0169
Format	12 Week Short Learning Programme with Five Contact Sessions
Course Fees (Two options)	**5 Day classroom attendance (in-person) - inclusive of all study material and relevant textbooks:** R19 800 (SAPOA members) R22 000 (Non-SAPOA members) **Alternatively, 5 Day interactive online sessions:** R17 600 (SAPOA and Non-SAPOA members)
