5 Day / 12 Week
Facilities Management Programme

Department of Facilities and Asset Management

INTRODUCTION

We are introducing a blended approach that combines the benefits of online learning with the engaging elements of live interaction. The proposed format features a mix of in-class and live, synchronous sessions alongside interactive online materials and activities. This approach not only retains the structure and personal connection of face-to-face courses, but also offers the convenience and accessibility of online learning.

Furthermore, the involvement of both academic experts and experienced property professionals ensures a rich and practical learning experience, tailored to the needs of today's Built Environment professionals.

PROGRAMME OBJECTIVES

The objective of this course is to equip students with a knowledge base suitable for structuring and executing a facilities management strategy.

PROGRAMME OUTCOMES

Delegates will be able to produce an assignment that can be used as a framework to compile their own instruction manual for Facilities Management practice. This can be developed into a workplace manual and the practical application of knowledge that promotes excellence in how to get the job done!

PROGRAMME FORMAT

The programme is presented on NQF5 (first year university) level. The course period is 12 weeks with 5 contact sessions (not applicable to self-paced online students) and the proposed format features a mix of in-class and live, synchronous sessions alongside interactive online materials and activities.

WHO SHOULD ATTEND?

The Facilities Management Course caters to individuals in first and middle management roles within both the private and public sectors, focusing on asset and maintenance management. Its primary objective is to furnish candidates with the necessary skills for formulating effective facilities management strategies. This field presents a wide array of employment prospects within the built environment, accompanied by comprehensive coverage of all study materials included in the course cost.

CERTIFICATE REQUIREMENTS

Participants will receive a Certificate of Attendance based on the number of hours attended, while a Certificate of Competence will be issued to those who attended the live sessions, completed all modules and assignments, and achieved a minimum score of 50%.

COURSE PRESENTERS

All presenters on the course are recognised leaders in their fields:

Programme Leader: Mr Karel Oberholzer

Karel Oberholzer is a property development specialist with over two decades of experience in banking and construction. Currently a director at Innovative Consolidated Group, he previously held senior roles at Bigen Group and Calgro M3, managing complex residential life cycles. His expertise includes 14 years at FNB, where he led advanced analytics. Academically, Karel holds an honours degree in Urban Geography and an MBA. This combination of analytical mastery and leadership in the built environment provides students with a commercially grounded perspective on property management.
