Facilities Management Programme

Department of Facilities and Asset Management

INTRODUCTION

Welcome to the future of learning for the built environment! In an era of rapid technological advancement and evolving industry demands, continuous learning is not just an advantage, but a necessity. This online learning course has been meticulously designed to equip you with the knowledge, skills, and insights required to thrive in the dynamic world of architecture, engineering, construction, and urban planning. Whether you're a seasoned professional looking to up-skill, a recent graduate eager to specialise, or someone considering a career transition into this vital sector, our flexible and comprehensive modules offer an unparalleled opportunity to learn at your own pace, from anywhere in the world. Prepare to engage with cutting-edge concepts, practical applications, and a community of like-minded individuals, all dedicated to shaping the sustainable and innovative built environments of tomorrow.

PROGRAMME OBJECTIVES

The objective of this course is to equip students with a knowledge base suitable for structuring and executing a facilities management strategy.

PROGRAMME OUTCOMES

Delegates will be able to produce an assignment that can be used as a framework to compile their own instruction manual for Facilities Management practice. This can be developed into a workplace manual and the practical application of knowledge that promotes excellence in how to get the job done!

PROGRAMME FORMAT

This self-paced online learning course offers a flexible yet structured learning experience over four months. It is led by experienced lecturers who cover a range of topics. Students access an online training portal to engage with study materials, including textbooks and pre-recorded video lectures, estimated to take 60 hours. In addition to self-paced study, students are required to complete structured assignments, which are expected to take approximately 20 hours for preparation and submission. These assignments will be evaluated, and feedback will be provided.

WHO SHOULD ATTEND?

The Facilities Management Course caters to individuals in first and middle management roles within both the private and public sectors, focusing on asset and maintenance management. Its primary objective is to furnish candidates with the necessary skills for formulating effective facilities management strategies. This field presents a wide array of employment prospects within the built environment, accompanied by comprehensive coverage of all study materials included in the course cost.

THIS COURSE IS PERFECT FOR:

- Matriculants with a passion for building, organising and leading.
- Problem-solvers who enjoy planning and work well within a team.
- Ambitious individuals ready to start building their career in specific sectors such as commercial, residential or infrastructure.

- Strategic Goal Alignment

COURSE COORDINATORS

All presenters on the course are recognised leaders in their fields:

Mr Karel Oberholzer

Karel Oberholzer is a property development specialist with over two decades of experience in banking and construction. Currently a director at Innovative Consolidated Group, he previously held senior roles at Bigen Group and Calgro M3, managing complex residential life cycles. His expertise includes 14 years at FNB, where he led advanced analytics. Academically, Karel holds an honours degree in Urban Geography and an MBA. This combination of analytical mastery and leadership in the built environment provides students with a commercially grounded perspective on property management.
